Dear Tonya

Thank you for your card and note sent on behalf of the ANZPNA Executive reporting that the Association has established travel grants for trainees in Paediatric Nephrology to be known as the Paul Roy Travel Awards to honour the memory of my late husband L. Paul Roy and all his work over many years for the advancement of Paediatric Nephrology.

It came as a complete surprise and my children, Simon and Jane, and I feel it is a wonderful honour and a worthy recognition of his legacy of hard work against the challenges and opposition he faced over many years in establishing the Paediatric Renal Unit and Centre for Kidney Research at Royal Alexandra Hospital for Children (now at Westmead), Sydney, both of which are now world class facilities. We feel that this award greatly honours his extensive research, clinical treatment of children with renal disease as well as his extensive teaching to others in this area both in Australia and overseas.

Please pass on our thanks to all the Executive for establishing this travel award in his name. We would also appreciate being given the names of each recipient who receives the travel grant.

Kind regards

A handwritten signature in cursive script that reads "Joyce Roy". The signature is written in black ink and is positioned above the printed name.

Joyce Roy
